

## Press Release

### **FIBERCOPI: WORK CONTINUES ON THE NEW FIBRE NETWORK IN RIVA DEL GARDA**

*Riva del Garda (Trento), 08 October 2025* – FiberCop, the company managing Italy's most extensive and far-reaching digital infrastructure, is continuing to strengthen the fibre optic internet network in the area of Riva del Garda, in the province of Trento, in close coordination with the Municipal Authority.

Works to build the new ultra-broadband network have already reached several areas of the municipality under the Italy 1 Giga Plan within the PNRR and FiberCop's standalone plan, with the aim of progressively making ultra-fast connections available.

The digital infrastructure put in place by FiberCop in Riva del Garda can reach speeds of up to 10 Gigabits per second and will accelerate the digitalisation of households, businesses and public administration, enabling innovative services such as 4K streaming, remote work, telemedicine and digital services including traffic management, street lighting and environmental monitoring. In addition, fibre will help the environment by reducing CO2 emissions.

Residents can check service availability with their chosen telecoms operator and request activation to benefit immediately from the performance of the new network.

"FiberCop continues to invest in the country's digital transformation, promoting the adoption of fibre and facilitating access to advanced services across its territory", said **Gianni Crocetti, FiberCop's Head of Operations for Northeastern Italy**. *"The availability of infrastructure that can handle ever-growing traffic volumes over stable, high-speed connections will support businesses in developing their activities and improve quality of life for citizens, contributing to the growth of the local economy."*

Wherever possible, existing infrastructure will be used for fibre installation, including public lighting ducts. Excavation works, where required, will be carried out according to environmental sustainability criteria. FiberCop will work to minimise the impact on traffic and proceed swiftly with delivery of the new network.

#### **FiberCop S.p.A**

Sole shareholder company, part of the Optics Holdco Group – Management and coordination by Optics Holdco S.r.l.

Registered office: Via Marco Aurelio, 24 - 20127 Milan, Italy

Share capital €17,835,900.00 (fully paid-up)
